Results-driven Customer Experience and Operations professional with 6+ years of progressive leadership experience, actively seeking remote or international opportunities in CX, Operations, or Virtual Assistant roles. Delivered 95% CSAT, +10 NPS, and 10% churn reduction while leading large-scale teams and cross-functional initiatives. A responsible and dedicated professional, committed to leveraging proven expertise, embracing new challenges, and delivering consistent value to a forward-thinking global organisation.

CORE COMPETENCIES

- Customer Journey Mapping
- CX Analytics (CSAT, NPS, Churn)
- Team Leadership & Coaching
- Process Improvement & SOP Design
- Cross-Functional Collaboration
- SLA Management
- Workforce Planning & Recruitment
- Product & QA Coordination
- Fraud Detection & Risk Control
- CRM & KPI Dashboard Management
- Stakeholder Communication

WORK EXPERIENCE

Chaldal Limited | Jashore, Bangladesh

Customer Experience Lead **Apr 2024 – 2026**

- Led a 52-member Customer Service Team, managing end-to-end customer journey across support, operations and logistics.
- Achieved 95% CSAT, +10 NPS, and 10% churn reduction through issue-pattern analysis, journey redesign, and service recovery.
- Built and managed the Corporate Sales & Premium Care (PK) Team, improving enterprise client retention.
- Implemented 15-day feedback cycles and agent-level training to continuously elevate service quality.
- Launched fraud detection protocols, reducing suspicious activity and safeguarding revenue.

Chaldal Limited | Jashore, Bangladesh

Customer Experience Manager **Jul 2023 – Mar 2024**

- Introduced KPI dashboards and structured feedback loops, increasing agent productivity and reducing average resolution time.
- Led satisfaction-improvement programmes, raising CSAT to 95%+ through root-cause monitoring and complaint reduction.
- Managed churn analysis and retention programmes, delivering measurable CX and business outcomes.
- Coordinated corporate client support, ensuring timely delivery, special handling, and billing accuracy.

Chaldal Limited | Jashore, Bangladesh

Customer Service In-charge **Jan 2021 - Jun 2023**

- Improved first-contact resolution and service efficiency through operational process redesign and friction-point analysis.
- Established a Software Quality Checker Team and Tech Escalation Unit, strengthening CX-Engineering collaboration.
- Directed QA cycles for internal tools, aligning engineering output with real-world user needs.

Chaldal Limited | Jashore, Bangladesh

Customer Service Executive **May 2019 – Dec 2020**

- Managed inbound and outbound customer support within SLA, contributing to early CX standardisation.
- Identified and escalated recurring service gaps, reducing repeat issues across key touchpoints.
- Trained 10+ new hires, supporting rapid team expansion during a high-growth period.

KEY PROJECTS

Chaldal Food – Pilot Launch, Jashore **Apr 2024 – Sep 2024**

• Coordinated customer, vendor, and operations workflows to ensure seamless CX during the Chaldal Food pilot launch.
• Designed feedback loops to identify and resolve early-stage CX issues prior to full-scale product rollout.
• Partnered with vendors to ensure accurate order fulfilment and minimise service failures.

Corporate Sales & Premium Care Launch **Jan 2024 – Jun 2024**

• Built Premium Care CX operations for high-value corporate customers, managing BDT 60+ lakh in monthly orders.
• Reduced corporate response and issue-resolution time by 30%, improving client satisfaction and long-term retention.

Recruitment & Workforce Expansion **Jul 2023 – Mar 2024**

- Partnered with HR to hire and onboard 1,000+ blue-collar employees across delivery, warehouse, and security functions.
- Optimised the recruitment pipeline, reducing hiring cycle time by 30% and improving early-stage retention through structured onboarding.

Dispatcher Ops Software Launch – Banani Warehouse **Feb 2023 – Jul 2023**

• Served as operational bridge between engineering and ground teams during the rollout of a new dispatch software managing 4,500+ weekly shipments.
• Co-developed real-time delivery dashboards, achieving a 25% reduction in dispatch errors within three months.

Tech QA & Engineering Support Teams Setup **Jun 2021 – Jun 2022**

• Established a Technical QA Team within Customer Service to test new features, identify bugs, and provide actionable engineering feedback.
• Built and led multiple internal teams focused on software testing and escalation management, improving product reliability and customer satisfaction.

EDUCATION

Bachelors of Business Administration, Management **2020**
Cantonment College Jashore | National University
